RE: A letter of endorsement for Dr. Steven Salyers D.C.

To Whom It May Concern

This letter outlines my strong endorsement of Dr. Steven Salyers as a professional and a person. I have known Steve for ten years. I have used him as my personal chiropractor throughout this period of time. I have had the opportunity to observe him as a patient, watch his interaction with others and listen to his professional instruction. This letter will specifically outline the reasons that I not only picked Steve as my chiropractor and friend but continue to remain with him. I must admit the Steve will not need this letter of endorsement. He will genuinely present himself and qualification in person.

My professional background includes practices in Emergency Medicine and Psychiatry and the association with a number residency training programs in both specialties. My professional qualifications give me sufficient experience to recommend this unique individual. I have found Dr. Steve Salyers to be quite articulate, highly intelligent and consistently sensitive and considerate of the needs of others. He is a man of independence and self-reliance when necessary, yet he is basically a “people person” and manages to maintain a spirit of cooperation and the team approach needed to get the job done. This has been quite obvious with his work in the Community and at Church.

Steve has a very positive attitude toward his family, friends and those he professionally cares for. His compassion is a natural attribute. He is consistently aware of everything around him and exudes a sense of integrity. He is always helping people with questions. Professionally, he communicates with self-confidence, is consistently courteous and shows respect with a handshake and a smile. I have found him quite knowledgeable of the musculoskeletal system, pressure points and techniques to relieve physical discomfort. Besides practicing chiropractic care he is also certified in nutritional health. With diligence and dependability, he not only creates a diet but patiently tolerates dietary deviation. I have personally referred many to his practice

I have grown to trust and respect Dr. Steve Salyers as a sincere friend. He is without question one of the most genuine men of character that I have seen since arriving in Bakersfield some 20 years ago. Let me know if I can be of any additional help for someone that I have grown to deeply respect and honor.
